JAVA FULL STACK DEVELOPER

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building and optimizing Java-based backend systems using Spring Boot and Hibernate, deploying RESTful APIs, and integrating React front-ends. Proven record of improving system performance and API response times in production and academic projects. Skilled in end-to-end application development, from database design to user-facing interfaces.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Backend & Frameworks: Spring Boot, Hibernate, Node.js, Express.js, RESTful API Design

Frontend: React, HTML5, CSS3, JavaScript

Databases: mySql, Oracle Sql

Other: API Development, Android app development. Backend Architecture, Agile Collaboration

WORK EXPERIENCE

Hi-Tech Industries (*internship*) Jun 2023 – July 2023

Haryana, India

- Architected a ERP System backend using Java, Spring Boot, React, Node.js, SQL , improving administrative efficiency by 35%.
- Built and integrated a React front-end for the system, boosting employee engagement and satisfaction by 25%.
- Optimized data workflows and query performance, reducing report generation time by 50% and enabling real-time analytics.

PROJECTS

Exigency Alert System — Java,XML (Android Based) Mar 2025 – Jun 2025

- The "Exigency Alert System" uses Dart and Firebase to respond to emergencies.
- If the device is shaken intensely, it triggers an alert. This alert sends an SMS with the device location, a live photo, and surrounding audio to chosen contacts.
- The system aims for a quick and thorough response in urgent situations, boosting personal safety and security.

ROBUST HUMAN TARGET DETECTION AND ACQUISITION — TensorFlow and Python Personal Project

- This project uses TensorFlow and Python to develop an advanced surveillance system that reliably detects and tracks human targets, even in challenging scenarios.
- It stands out by incorporating anomaly detection to recognize unusual behaviors, instantly raising alarms for attention. In essence, it's a smart and robust system designed to enhance human target surveillance in various situations.

EDUCATION

Bachelor of Technology (B.Tech. in CSE), Gandhi Institute of Engineering and Technology 2022 – 2025

Gunupur, Odisha, India

CERTIFICATIONS

Wipro Java Full Stack Certification course 2024 oct 2024
